Act Report

Student: Waldecyr Souza

Introduction

We used the main data previously created successfully to answer the following questions:

1. What are the most frequent breeds?
2. What breeds receive more favorites?
3. What dogs stage receive more retweets?

## Development

What are the most frequent breeds?

Golden Retriever is the most frequent breed, following by Pembroke and Labrador Retriever. To get to this conclusion, we counted all the results of a image prediction algorithm in more than 2.000 tweets. Chihuahua and Pug complete the top 5 list.
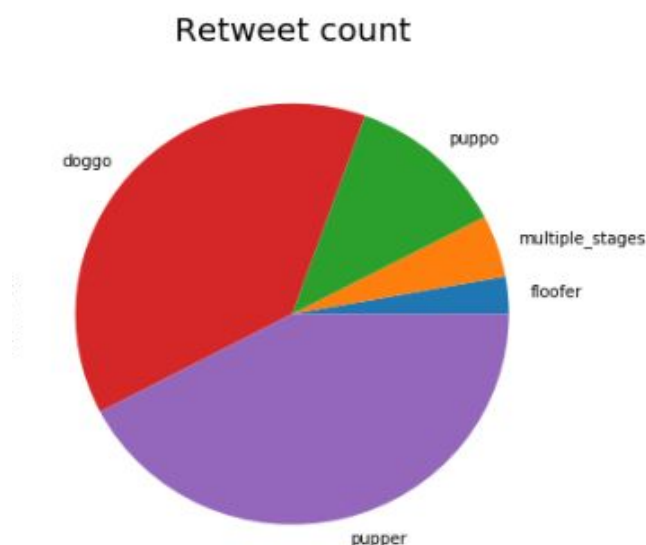

What breeds have the high favorite mean?

Bedington Terrier presents the highest mean of favorite tweet, followed by Saluki and Irish Water Spaniel. Interesting that although Golden Retriever has the highest number of occurrences, this breed does not appear in the top 5 favorite mean. We have consulted the full data and its position in this criteria is 13º.

What dogs stage get more retweets?

According to our data, as expected, pupper is the most retweeted stage of WeRateDogs Twitter.

Conclusion

The main data created was successfully used to answer the questions presented in the introduction of this document.
